ABOUT ME

I am a WordPress developer and SEO specialist passionate about crafting high-performing, user-friendly websites. With expertise in Elementor Builder, I design responsive, visually appealing websites tailored to diverse business needs. My SEO services include on-page optimization, keyword research, and content strategies to improve search rankings and boost online presence.

With over three years of front-end development experience, I specialize in HTML, CSS, JavaScript, Vue.js, and API integration, delivering seamless user experiences. My thorough testing ensures every website is optimized for functionality, performance, and usability.

By combining WordPress development, SEO expertise, and technical skills, I provide tailored solutions to improve search visibility, user engagement, and website efficiency. Let's connect to elevate your online presence!
